#### Restoring THE BALD AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the won-leval come and gone, being carried away by the won-leval results of Prof. Wcod's preparation, and have been lorded to leave the field to its resistless sway. Rend the following:

Prof O. J. Wood &Co. Gents: the letter I wrote you in 1856, concerning your velocite Hair Restorative, and which you have jublished in this vicinity and elsewhere, has given rise to numerous inquiries touching the tacts in the case. The inquiries are, first, is it a fact of my institution and name, as stated in the communication; second, is it true of all therein contained;

where, has given tise to mannerous inquiries touching the tacts in the case. The inquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third does my hair still continue to be in good order and of natural color? To all I can and will answer mariably yes. My hair is even better than in any stage of my life for ferty years past, more self thinty and better colored; the same is true of my whiskers, and the only cause why it is not generally the is that the substance is wesled off by frequent ablation of the face, when if care were used by wining the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as well as this, it has no doubt been basely imitated and been used, not only without any good but to absolute highry. I have not used any of the face my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact. I send you a lock of my hair, taken off the past week. I received your favor of two quart bottles last Summer for which I am very grateful: I gave it to my friences and thereby induced them to try it, many were skepticle until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative sold by many. I fear without authority from you. A pure article which curses the iniventor of the good. I deem it my duty as heretofore to keep you apprised of continued facts on my hair, as I assure all who enquire of my my man hake opinion of its valuable results. I remain, dear sir, yours.

but if you think it worthy a place among the rest, insert if you wish; if not desiroy and say nothing.

Yours, &c., Rev S. A. B.
